PROFESSIONAL SUMMARY

Strategic Technical Leader with over a decade of experience architecting and scaling enterprise solutions across cloud, on-premises, and hybrid environments. Proven track record of delivering mission-critical systems in regulated industries including healthcare, banking, and government sectors. Expert in optimizing infrastructure costs, implementing security compliance frameworks, and leading distributed engineering teams. Demonstrated success in translating complex business requirements into scalable technical solutions while managing stakeholder relationships at all levels.

CORE COMPETENCIES

- **Technical Leadership:** Distributed Systems Architecture, Multi-Cloud Strategy, Infrastructure Optimization, Technical Roadmap Development
- **Cloud & Infrastructure:** AWS, Azure, Digital Ocean, Scaleway, OVH, Private Cloud, Hybrid Deployments
- **DevOps & Automation:** CI/CD Pipeline Design, Infrastructure as Code, Container Orchestration, Process Automation
- **Security & Compliance:** Financial Regulatory Compliance, HIPAA, PCI DSS, Security Audits, Risk Management
- **Team Leadership:** Remote Team Management, Technical Mentorship, Stakeholder Management, Resource Planning
- **Business Operations:** Budget Management, Vendor Relations, Technical Proposal Development, Strategic Planning

PROFESSIONAL EXPERIENCE

Freelance Technical Consultant

Self-employed — April 2024 to Present

- Lead strategic infrastructure transformations for enterprise clients, focusing on cost optimization and scalability - Designed and implemented a private cloud solution for a \$1.3M government contract, delivering within budget and deadline - Provide expertise in cloud migration strategies, infrastructure optimization, and cost reduction - Guide teams in modernizing deployment processes through CI/CD implementation and containerization

Global Technical Lead

RxHealth Info Systems — May 2021 to March 2024

- Led architecture and implementation of Ghana's National E-Pharmacy Platform, ensuring HIPAA compliance and regulatory standards - Orchestrated migration of 30+ projects to GitLab with automated CI/CD pipelines, achieving 70% deployment automation
- Reduced infrastructure costs by 70% through private cloud implementation while enhancing security and scalability
- Designed and implemented distributed systems using microservices architecture and event-driven patterns
- Established comprehensive observability using OpenTelemetry, managing logs, metrics, and distributed tracing
- Built and mentored a team of 15+ developers, implementing agile practices and reducing deployment cycles

Systems Administrator

Services Integrity Savings & Loans Ltd — Feb 2017 to Apr 2021

- Architected and maintained banking infrastructure meeting Central Bank regulations and PCI DSS requirements
- Achieved 40% cost reduction through implementation of automated L3 backup system for remote branches
- Reduced deployment cycles from 4+ days to under 36 hours through environment automation
- Maintained perfect security audit record over 4 fiscal years
- Implemented comprehensive disaster recovery and business continuity procedures

Technology & Systems Support Officer

Office of the President, Republic of Ghana — Aug 2013 to Jan 2017

- Served as technical analyst for UNDP and DFID-funded national initiatives
- Developed digital correspondence system reducing average processing time from 7 business days to under 24 hours
- Managed vendor relationships and coordinated multi-agency technical projects
- Led technical proposal development and stakeholder presentations for government initiatives

Senior ICT Assistant

Kwame Nkrumah University of Science & Technology — Feb 2012 to Jul 2013

- Implemented biometric verification system for 35,000+ students

- Developed web applications reducing applicant processing time by 87%

TECHNICAL SKILLS

- **Infrastructure & Cloud:** Terraform, Docker, Kubernetes, Nomad, Consul, AWS, Azure, Digital Ocean, Scaleway, OVH
- **Observability & Monitoring:** OpenTelemetry, Datadog, Grafana, Prometheus, ELK Stack, Loki
- **Development & Architecture:** PHP, Python, Laravel, JavaScript, AlpineJS, Tailwind, Microservices, Event-Driven Architecture
- **Message Queuing:** Redis, RabbitMQ, Beanstalk, MQTT, PostgreSQL-based queuing
- **Databases:** PostgreSQL, MariaDB, MySQL, Oracle, SQL Server
- **DevOps & CI/CD:** GitLab CI, GitHub Actions, Jenkins, Infrastructure as Code
- **Collaboration:** PowerBI, Metabase, Superset, Balsamiq, Figma

EDUCATION

Kwame Nkrumah University of Science & Technology
BSc. Materials Engineering

COMMUNITY IMPACT

- Established and led developer mentorship programs focusing on both technical and leadership skills
- Guided junior and senior engineers in career development and technical growth
- Contributed to technology education initiatives in Ghana
